-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 30 and 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Turner et al. (US Patent 5,651,850) in view of McCarville et al. (US Patent 5,968,445).

With regards to claim 30, Turner et al. discloses a tool for manufacturing large aircraft parts, the tool comprising a male mandrel 10 having a lay-up surface (col. 5, lines 61-67 and col. 6, lines 1-4), one vacuum zone defined on the lay-up surface of the mandrel (col. 8, lines 1-9). It should be noted that the small holes distributed over the surface of the mandrel in combination with conventional vacuum ports associated with the air pump constitute a low profile seal. Turner et al. does not specifically disclose a laminate release surface covering the vacuum seal on the mandrel lay-up surface, however McCarville teaches such a laminate release surface 36 (col. 5, lines 50-55 and col. 8, lines 54-56). Therefore it would have been obvious to one of ordinary skill in the art at the time the invention was made, to have provided a laminate release surface on the male mandrel of Turner et al., in light of the teachings of McCarville et al., in order to allow for easy removal of the parts from the lay-up mandrel.

For claim 32, see column 7, lines 1-2 of Turner et al.

Allowable Subject Matter

3. Claims 1, 3-20, 26-29, 33 and 35 are allowed.
4. Claim 31 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 30 and 32 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
